

Dr. Michele Jacotti
Italy

He has a degree in Odontology and Dental prosthesis at Milan University in 1991 and has attended implant specialization courses in Italy and abroad.

Since 1992 he has devoted his professional activity solely to implantology and implant prosthesis.

Regularly a speaker at courses and conventions, he has written articles in both national and international magazines.

He is the author of the book: "3D Block Technique", published by RC Libri.

His practice is Visiting Center Zimmer Dental in Brescia.
